## 1. Admission Schedule

### - The period for Application

	First recruitment	2nd recruitment
The period for Application	2022.4.4.(Mon) ~ 2022.4.14.(Thu)	2022.5.16.(Mon) ~ 2022.5.24.(Tue)

All Application Documents should be submitted during this period.

※ Foreigners have to submit application form by registered mail or visiting to Univ.

### - Admission Examination

Admission Decision depends on documentation test score.

- Documentation test: Documentation test evaluates by reviewing the Application Form including the application documents and the letter of recommendation. The Office of Graduate School Academic Affairs may request additional materials to review, if necessary.
- Interview if necessary.(Interview : face to face, telephone(Video), etc.)

### - Announcement of Admission Result

	First recruitment	2nd recruitment
Admission Result	2022.5.6.(Fri)	2022..6.7(Mon)

### - Registration Period

- 1nd ~ 2 nd From June 20(Mon) to July 1(Fri), 2022
- Registration Method : Bank transfer
- Every candidate must observe the registration period in order not to be disqualified

### - Fall Semester, 2022 begins : September 1(Tue), 2022

## 2. Admission Procedures

The entire admission process of Graduate School is as follows.

- Applicants submit a completed application packet.
- The Graduate School Committee makes a decision on success or failure.
- The Office of Graduate School Academic Affairs notifies successful candidates.
- Successful candidates register in the program of study.

## 3. Application Eligibility & Fields of Admission

- ※ Please check the required official certificate of Language Proficiency for each department first before submitting applications.
- ※ From Spring 2016, submitting TOPIK(Test of Proficiency in Korean) is mandatory(level 3 or higher) for every international student. English Proficiency tests may be accepted for some departments.
  - Any application without level 3 or above of TOPIK will be rejected unless stated otherwise.
  - The minimum level of TOPIK is different for each department and major. Check it carefully.
  - Applicants those applying with English Proficiency tests must meet with one of the criteria below.

## Fall Semester, 2022

- In case applicant's official language proficiency score does not meet the requirements, (applicable to all divisions): with Admission Recommendation by a KAU professor of the respective department, the applicant can be exempted from the language proficiency mentioned below requirement for a certain period at the entrance stage. (Admission Recommendation Form(a fixed document) should be filled out, signed by KAU Professor & Head Professor)

\* Students admitted with admission recommendation need to supplement with TOPIK level 4 or higher or an acceptable English language proficiency test score mentioned below one semester before the start of the graduating (final) semester.

Program	Academic Area	Departments	Major	Language Proficiency Criteria	telephone +82-2~
Master's Degree Program - Joint Master & Doctor's Degree	Engineering	Department of Aerospace & Mechanical Engineering	Thermal and Fluids Engineering, Structure and Materials Engineering, Production and System Engineering, Control and Dynamics	TOPIK score (3th grade or higher) or A certificate of Korean language fluency at least 4rd grade issued at Korea Aerospace University Institute of international Culture and Education or one of TOEFL score(Internet-based) of at least 83, IELTS score of at least 5.5 or TEPS score of at least 579	300-0100 300-0170
		Department of Electronic and Information Engineering	Avionics and Control Systems, Communication Systems and Multimedia Microwave and Integrated Circuits Computer Information Systems and Network Semiconductor and Display		300-0120 300-0130
		Department of Computer Engineering	Computer Systems, System Software, Application Software, Aerospace Software		300-0180
		Department of Materials Science and Engineering	Metallic Materials, Ceramic Materials, Composite Materials, Electronic Materials		300-0160
		Department of Smart Air Mobility	Drone Dynamics Control, Drone Structural Design, Drone Propulsion System, Drone Operation Management,		300-0255
		Department of Artificial Intelligence	AI modeling, AI system design, AI application		300-0130
		Department of Semiconductors	Elements, processes, circuits, materials.		300-0180
	Natural Science	Department of Aviation Management	Aviation Management	TOPIK score (4th grade or higher) or TOPIK score or A certificate of Korean language fluency at least 5rd grade issued at Korea Aerospace University Institute of international Culture and Education.	300-0255
